EDUCATION

University of North Carolina at Charlotte <i>PhD in Computer Science</i>	2026 – Present Charlotte, NC
Miami University <i>M.S. in Computer Science, GPA: 4.00/4.00</i>	Aug 2024 – May 2026 Oxford, OH
Rajshahi University <i>B.S. in Computer Science & Engineering, GPA: 3.78/4.00</i>	Jan 2017 – Apr 2022 Rajshahi, Bangladesh

EXPERIENCE

Software Engineer / Senior Software Engineer <i>Samsung Research & Development Institute</i>	Jul 2022 – Jul 2024 Dhaka, Bangladesh
- Developed and maintained production features for Galaxy Watch 6/7 and Fit3 plugins (Sound Settings, Display Settings, Band Rotate, About Band), serving 10M+ users worldwide - Built and shipped Android/Kotlin/Java features within an Agile team, collaborating across QA, product, and design to deliver on WearOS - Mentored junior developers and contributed to technical architecture and code review decisions - Recognized with 2× Excellence Awards for engineering contributions	
Machine Learning / Computer Vision Intern <i>Innovision LLC</i>	Summer 2026 Remote
- Built and tested computer vision and deep learning pipelines for 3D medical imaging data, working with a real clinical dataset of 3D facial scans - Benchmarked segmentation approaches for a specialized healthcare application; contributed from research through development and initial deployment	
Graduate Teaching Assistant <i>Miami University</i>	Aug 2024 – May 2026 Oxford, OH
Assisted instruction in Machine Learning, AI, and Systems Engineering courses; mentored 60+ students on coding labs and semester-long software projects	

PROJECTS

QuikDel – Scalable Multi-Agent Delivery System Designed and built a hierarchical multi-agent routing/dispatch system using Q-learning; achieved a 25% reduction in travel distance while sustaining 13,866+ requests/hour in large-scale simulation. Published in <i>IEEE Access</i> , 2026. [code]	<i>Python, TensorFlow, GIS</i>
Deep Learning-Based Road Skeletonization Built a U-Net segmentation model extracting one-pixel-wide road skeletons from satellite imagery; achieved Dice = 0.87, IoU = 0.79 on OpenStreetMap data. [code]	<i>PyTorch, U-Net, OpenCV</i>
Feistel-Based Cryptographic Algorithm Implemented a custom Feistel cipher with 32-bit key, LFSR-based key scheduling, S-Box transformation, and P-Box permutation. [code]	<i>Python</i>

TECHNICAL SKILLS

Languages: Python, C, C++, C#, Java, Kotlin, JavaScript, Bash
Software Engineering: Git, CI/CD, Unit Testing, Agile, Docker, REST APIs, Android SDK
ML/Data: TensorFlow, PyTorch, Scikit-learn, NumPy, Pandas
Systems & Tools: Linux, MySQL, MongoDB, PostgreSQL, VS Code, Jupyter

HONORS & ACTIVITIES

Dean's List (3×), Rajshahi University • Codeforces rating 1544; 1,300+ problems solved; ICPC Regional Rank 74th • Social Chair, Chess Club, Miami University
